Mills, a lifelong Unitarian Universalist, draws on her own experiences as well as the stories of others to show how this faith can provide a path to personal growth, spiritual fulfillment, and social justice.

Unitarian Universalism is a liberal religion that emphasizes the importance of reason, compassion, and tolerance. It is a welcoming faith that embraces people of all ages, races, genders, sexual orientations, and religious backgrounds.

Mills argues that Unitarian Universalism is a particularly transformative faith because it encourages its members to question their beliefs, to seek out new knowledge, and to work for a more just and equitable world.

She writes, "Unitarian Universalism is a faith that is always evolving, always growing, and always changing. It is a faith that is not afraid to ask questions, to challenge the status quo, and to work for a better world."

Mills' book is filled with stories of people whose lives have been changed by Unitarian Universalism. There is the story of a young woman who found a sense of belonging in a Unitarian Universalist congregation after she was rejected by her own family because she was gay. There is the story of a man who found hope and healing in Unitarian Universalism after he lost his job and his home. And there is the story of a group of activists who found the inspiration and support they needed to fight for social justice in their Unitarian Universalist congregation.

These stories are a testament to the transformative power of Unitarian Universalism. They show how this faith can help people to find meaning and purpose in their lives, to overcome adversity, and to make a difference in the world.

If you are looking for a faith that will challenge you to grow, inspire you to make a difference, and welcome you with open arms, then Unitarian Universalism may be the right path for you.
