Andrew Samuels is one of the most influential psychoanalysts of our time. His work has helped to shape our understanding of the human psyche, and has had a profound impact on the fields of psychoanalysis, Jungian analysis, and object relations theory.

The Selected Works of Andrew Samuels brings together a collection of his most important writings, providing a comprehensive overview of his thought. The book includes essays on a wide range of topics, including:

- The nature of the unconscious mind
- The development of the self
- The dynamics of relationships

- The role of imagination in therapy
- The spiritual dimension of psychology

Through his lucid and engaging writing, Samuels offers a unique perspective on the human psyche. He shows us how the unconscious mind is a powerful force that shapes our thoughts, feelings, and behaviors. He also explores the importance of relationships in our lives, and how they can help us to grow and develop.

The Selected Works of Andrew Samuels is an essential read for anyone interested in psychology, psychoanalysis, or the human condition. It is a book that will challenge your assumptions, open your mind, and help you to understand yourself and others more deeply.
