What is the Final Orthopedic Exam?

The Final Orthopedic Exam is a two-part exam that is administered by the American Board of Orthopaedic Surgery (ABOS). The first part of the exam is a written exam that consists of 200 multiple-choice questions. The second part of the exam is an oral exam that consists of 10 case presentations.

How to Prepare for the Final Orthopedic Exam

Preparing for the Final Orthopedic Exam can be a daunting task, but it is important to remember that you are not alone. There are many resources available to help you prepare, including study guides, online courses, and practice exams.

One of the most important things you can do to prepare for the exam is to create a study schedule. This schedule should be tailored to your individual needs and should include time for both studying and relaxation.

In addition to creating a study schedule, it is also important to find a study partner or group. Studying with others can help you stay motivated and can also help you learn from each other.

What to Expect on the Final Orthopedic Exam

The Final Orthopedic Exam is a challenging exam, but it is also a fair exam. The examiners are looking for candidates who have a strong understanding of orthopedic surgery and who are able to apply that knowledge to clinical practice.

On the written exam, you can expect to see questions on all aspects of orthopedic surgery, including:

- Basic science
- Clinical practice
- Trauma
- Sports medicine

- Pediatrics
- Geriatrics

On the oral exam, you will be presented with 10 case presentations. You will be asked to discuss the diagnosis, treatment, and prognosis of each case.

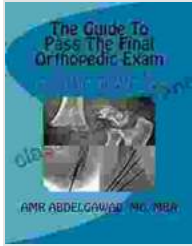

Tips for Passing the Final Orthopedic Exam

Here are a few tips for passing the Final Orthopedic Exam:

- Start studying early.
